

U. N. TREASON

Continued from page 2

the Senate has gotten us into. "WE" will send our young men any place on earth to fight U. N. wars for any reason U. N. decides to fight the wars, and neither Congress nor the People will be consulted.

In addition to this, once our forces are committed their commanders, whoever they may be, will report ALL MILITARY ACTIONS, undertaken OR IN CONTEMPLATION, to the Military Council of the U.N. and the head of the Military Council by agreement, will always be a "Soviet citizen."

The United Nations is MOST INSISTENT that Britain recognize an OBLIGATION to use military force against Rhodesia if nothing else works. The British Government KNOWS that the surest and quickest way to bring down the government is to try it. The United Nations wants war in South Africa with its burgeoning and unexplored riches, MORE THAN U.N. EVER WANTED ANYTHING before. Forcing Britain to fight that way and PAY FOR IT would be a BIG DEAL for the U. N.

But Britain wants off the hook. As this is written Britain is trying to persuade U. N. to do its own dirty work. And perhaps they will; most likely with "OUR" troops, which are being so generously offered by "our" Ambassador.

This is the way American lives and American treasure are thrust into world-wide empire building wars. This is the CONTINUING CONSEQUENCE of "our" "treaty" with the United Nations.

You may have doubted what we have been telling you. Many of you DO NOT CARE; most of you would "pass the buck" to the CONGRESS who got us into this mess, and who have bankrupted us, collectively and individually, in supporting its global conquests. There is no place to "pass the buck" now. The policy and program of the United Nations — and the disastrous consequences of the ACCEPTANCE of the whole infamous scheme, are apparent in the Rhodesian situation. Responsible public officials will watch it carefully, and prepare to justify the faith of the people as the Revolutionary Government of the United Nations moves in for the final assault.

The tragedy of this whole thing is that there are so many irresponsible people in the United States, and that so many of the most irresponsible are found in the business and professional communities where the unprecedented profits of the "cold war" have deadened all sense of civic or patriotic awareness. Nothing — absolutely nothing counts, except black ink this month. The general attitude is: Who wants to kill Santa Claus? Whoever is responsible for these good times is MY BOY. I'm for him. What do I care about public debt. Did you ever hear of The Gross National Product? The G. N. P. is the Golden Key to perpetual prosperity. The G. N. P., the Peace and Security boys should KNOW is based MORE THAN 60% on WAR, and the accoutrements of WAR. Peace would drop the G. N. P. to panic levels — UNLESS the SAVINGS of disarmament and a hoped-for "peace" can be spent to increase the G. N. P. by distributing the great production of America-world-wide and "for free." The new economist does not realize that when the war-based G. N. P. goes down through return to Peace, the debt remains the same.

The unrealistic economics of the Affluent Society, and the World Empire adventures of the Council on Foreign Relations have brought the governments of the world face to face with chaos. The whole thing is economic, and the solutions to World Empire problems are economic. They MUST HAVE some form of World Currency — AND SOON — otherwise they will have to resort to the age-old solution to unpayable debt — WILD INFLATION—such as this same gang of international highbinders brought upon Germany and many other countries before that time.

The addition of the VERY RICH continent of Africa and the oil-rich territory of Southeast Asia to the Soviet World Empire will solve a lot of economic problems for the

VIETNAM ~~~~~ WHERE NEXT ?

created by diplomats in a far-off country who possibly have never known the pain of battle or the loss of a son or a husband.

Once a war is joined, it must be won. The war in Vietnam must end in honor, independence and freedom for all of Vietnam. No enemy has ever been able to withstand the might and anger of an aroused America. We must replace the State Department surrender salesmen with our Joint Chiefs of Staff and give them the green light to proceed to an honorable victory. Full use must be made of all the power available, ground, sea, and air forces, as well as trade embargoes, blockades of Communist ports, and diplomatic weapons as closing of Red consular offices.

If we are to battle, let's battle to win. If we are not, then let's stop the slaughter of our young men and bring them home from throughout the world and submit to international communism's ambition — the same in Peking as in Moscow — to control the world.

"In war, there is no substitute for victory," said General Douglas MacArthur. There can be no victory in any policy line permitting the enemy to choose the weapons and the battlefield.

Neither can a military victory be followed by a true peace if the people allow Socialists, pro-Communists, and one-world politicians to

World Empire. You need but watch what happens and hear how the Washington Government of the U. N. explains it. In the meantime, don't miss the remarks of "our" Ambassador as HE supports WAR IN RHODESIA and tells US what "WE" are going to do and to pay.

This "international civil servant" who has sworn to serve the interests of the United Nations ONLY is bound by Charter law, Article 2, "to give the United Nations EVERY ASSISTANCE in any action it takes" and in carrying out this obligation HE COMMITS THE UNITED STATES TO ANY ACTION decided upon by the United Nations. It is not really a question whether Mr. Goldberg WANTS to plunge us into an African war—he HAS TO DO IT if the U.N. requires it.

The position of Britain as she attempts to meet her obligation under Article 25 to "ACCEPT and CARRY OUT the decisions of the Security Council" and the General Assembly is clearly revealed and should jolt the responsible citizen of a "Member State." It has been obvious from the beginning that Britain DID NOT WANT to take back her former colony or to force that colony to adopt Negro rule, which is what this is all about. It does not matter WHAT Britain WANTS, she will do as she is told — precisely as the United States did — with much less publicity — when the "Congress" enacted a wholly un-Constitutional "Civil Rights Bill" to meet the DEMANDS of General Assembly Resolution No. 1904. As the U. N. Participation Act plainly says, these decisions will be carried out "Notwithstanding the provisions of ANY OTHER LAW."

The United Nations is running the world and "communizing" it as they go along. And the Council on Foreign Relations owns and controls the United Nations. And NEVER FORGET — the United States Government is ABSOLUTELY COMMITTED.

"To accept and carry out the decisions of the Security Council" and the General Assembly. No matter what they are.

And "we" are represented in this insane adventure by a man sworn to neither "SEEK nor ACCEPT" instructions from anybody in the United States. Congress, of course, THOUGHT they had prevented any such situation when they enacted the U. N. Participation Act. But for all the force or effect a law of Congress has now, the Congress may as well stay home and let the General Assembly run its "Member State" openly.

This, gentlemen, is the end result of the 17th Amendment to the Constitution of the United States.

MARY DAVISON, Editor,

surrender at negotiation tables what our men won on the battlefield.

Today, more so than at any other period of our history, Americans must take an interest in studying and learning what political philosophy their leaders truly represent. Today, even more so than at Valley Forge, we must apply George Washington's words: "Put none but Americans on guard tonight."

Double-Dealing Allies Sell Out to the Enemy

By PAUL HARVEY

... My office received a telephone call from Florida's Congressman Paul Rogers. He was ready.

Representative Rogers had completed the necessary documentation so that none could deny what he was about to reveal. Surely, he and I agreed, this revelation would have a tremendous impact on the American people. They would probably demand a reassessment of our military position in Vietnam and certainly would demand immediate suspension of much foreign aid...

Minutes later on the floor of Congress, Mr. Rogers dropped his bomb. Nothing happened. No shock waves were felt in Waxahatchie or Kokomo or Tallahassee.

The house half of congress, unruffled by the revelation, casually took up its next order of business. And the handful of us left trembling with anger, looked on and wondered.

What was the announcement which might have electrified the electorate? The Honorable Mr. Rogers confirmed that our double-dealing friends were giving aid and comfort to our enemies.

He revealed that in the past six months 210 ships have landed supplies in the Red port of Hanoi in North Vietnam... They were ships flying the flags of our allies! They were ships from Japan and Greece, Norway and Lebanon, Italy and West Germany. And 41 per cent of them were British!

I remember Korea, where the British had been willing to sell jet engines to Red China for 30 pieces of silver — though those jet engines then became available to kill British troops!

Surely, I thought, they and we would have learned better since then. They haven't.

Surely, though, the American people would now arise in righteous wrath and demand an immediate accounting. After all, had not the British prime minister assured our White House that his government supports our "firmer policy," our increased air strikes, in Vietnam.

Yet, while he "supports our policy," British mercenaries continue to prosper by doing business with the enemy!

It was the terrible silence which followed Representative Rogers' disclosure which distressed me most. Congress routinely resumed consideration of more "aid" for our two-faced friends.

And, we, the people, continued indirectly to send aid to North Vietnam and continued directly to send \$2 million a day to South Vietnam... And continue to bring our sons home in boxes.

Common Sense.
